21 – 26 The Illinois National Bank & Trust Co. of Rockford

Berkshire Hathaway Inc.

March 15, 1971

*To the Stockholders of
Berkshire Hathaway Inc.:*

The past year witnessed dramatically diverse earnings results among our various operating units. The Illinois National Bank & Trust reported record earnings and continued to rank right at the top, nationally, among banks in terms of earnings as a percentage of average resources. Our insurance operations had some deterioration in underwriting results, but increased investment income produced a continued excellent return. The textile business became progressively more difficult throughout the year and the final break-even result is understandable, considering the industry environment.

The combination of these factors produced a return of approximately 10% on average shareholder's investment. While this figure is only about average for American industry, it is considerably in excess of what would have been achieved had resources continued to be devoted exclusively to the textile business, as was the pattern until five years ago.

Textile Operations

Sales in both menswear linings and home fabrics declined significantly during the year. Thus we were continuously forced to modify production plans to prevent inventories from mounting. Such production curtailments were costly to the Company and disruptive to the lives of our employees.

Prices continue at poor levels and demand has not strengthened. Inventory levels, while reduced from a year ago through great effort, continue high in relation to current sales levels. We continue to work at making the changes required in manufacturing and marketing areas that will result in profitable operations with more stable employment.

Led by Ken Chace, the effort, attitude and enterprise manifested by management and labor in this operation have been every bit the equal of their counterparts in our much more profitable businesses. But in the past year they have been swimming against a strong tide and, at this writing, that situation still prevails.

Insurance Operations

We enjoyed an outstanding year for growth in our insurance business, accompanied by a somewhat poorer underwriting picture. Our traditional operation experienced a surge in volume as conventional auto insurance markets became more restricted. This is in line with our history as a non-conventional carrier which receives volume gains on a "wave" basis when standard markets are experiencing capacity or underwriting problems. Although our combined loss and expense ratio on the traditional business rose to approximately 100% during the year, our management, led by Jack Ringwalt and Phil Liesche, has the ability and determination to return it to an underwriting profit.

Our new reinsurance division, managed by George Young, made substantial progress during the year. While an evaluation of this division's underwriting will take some years, initial signs are encouraging. We are producing significant volume in diverse areas of reinsurance and developing a more complete staff in order to handle a much larger volume of business in the future.

The surety business, referred to in last year's report, operated at a significant underwriting loss during 1970. The contractor's bond field was a disappointment and we are restricting our writings to the miscellaneous bond area. This will mean much less volume but, hopefully, underwriting profits.

Our "home-state" operation — Cornhusker Casualty Company, formed in early 1970 as a 100% owned subsidiary of National Indemnity, writing standard business through Nebraska agents only — is off to a strong start. The combination of big-company capability and small-company accessibility is proving to be a strong marketing tool with first class agents. John Ringwalt deserves credit for translating the concept into reality. Our present plans envision extension of the home-state approach and we plan to have another company in operation later this year.

Banking Operations

Eugene Abegg had the problem in 1970 of topping a banner year in 1969 — and in the face of an unchanged level of deposits, managed to do it. While maintaining a position of above average liquidity, net operating earnings before security gains came to well over 2% of average deposits. This record reflects an exceptionally well-managed banking business.

Bob Kline became President of the Illinois National Bank in January, 1971, with Mr. Abegg continuing as Chairman and Chief Executive Officer. Illinois is a unit banking state, and deposit growth is hard to come by. In the year he has been with the bank, Mr. Kline has demonstrated effort and initiative in generating new deposits. Such deposit growth, in line with national trends, will largely be in the consumer savings area with attendant high costs. With generally lower interest rates prevailing on loans throughout the country, it will be a challenge to management to maintain earnings while utilizing a higher cost deposit mix.

In the closing days of 1970, new bank holding company legislation was passed which affects Berkshire Hathaway because of its controlling ownership of The Illinois National Bank. In effect, we have about ten years to dispose of stock in the bank (which could involve a spin-off of bank stock to our shareholders) and it will probably be some time before we decide on a course of action. In the meantime, certain activities of all entities in the Berkshire Hathaway group — including acquisitions — are subject to the provisions of the Act and Regulations of the Federal Reserve Board.

Warren E. Buffett
Chairman of the Board

The Board of Directors and Stockholders
Berkshire Hathaway Inc.:

We have examined the consolidated balance sheet of Berkshire Hathaway Inc. and its subsidiary as of January 2, 1971 and the related statements of earnings, retained earnings and source and application of funds for the 52 weeks then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the above mentioned financial statements present fairly the financial position of Berkshire Hathaway Inc. and its subsidiary at January 2, 1971 and the results of their operations and source and application of funds for the 52 weeks then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

Peat Marwick Mitchell & Co.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

January 2, 1971

(1) Principles of Consolidation:

The accompanying financial statements consolidate the accounts of Berkshire Hathaway Inc. with its wholly-owned Canadian subsidiary. The accounts of insurance subsidiaries, substantially 100% owned by Berkshire Hathaway, and the accounts of the Illinois National Bank and Trust Co. of Rockford and subsidiaries, approximately 98% of which was acquired by Berkshire Hathaway in March 1969, are not consolidated. The accompanying statement of earnings reflects, based on current certified audit reports of these companies, the equity of Berkshire Hathaway Inc. in earnings of these functionally independent operations. The investments in these subsidiaries are carried at cost plus the equity in undistributed earnings since acquisition. Three immaterial subsidiaries (an insurance agency, a printing and a publishing

operation) have not been consolidated, and the investments therein are carried at cost.

(2) Investment in Unconsolidated Subsidiaries

The carrying value of \$40,203,571 for all unconsolidated subsidiaries at January 2, 1971 was approximately \$2,124,000 in excess of the Company's equity in book values reflected in the accounts of the subsidiaries. No part of this excess has been allocated between tangible and intangible assets as the effect on income of such allocation would not be material and the excess is not being amortized as management believes its value is not declining.

Detailed financial statements of the two insurance subsidiaries and the bank subsidiary are presented elsewhere in this report.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, *Continued*

(3) Inventories:

A comparative summary follows:

	Jan. 2, 1971	Jan. 3, 1970
Raw materials and supplies	\$ 543,660	\$ 1,168,967
Stock in process	1,425,216	1,798,224
Cloth	6,502,922	6,302,387
	\$ 8,471,798	\$ 9,269,578

(4) Property, Plant and Equipment:

The Company's general policy is to provide for depreciation over the estimated useful lives as allowed by taxing authorities. Except for new additions subsequent to 1965 which are depreciated on the double-declining balance method, depreciation is provided on the straight-line basis. The composition of property, plant and equipment is shown below:

	Jan. 2, 1971	Jan. 3, 1970
Land	\$ 87,116	\$ 106,555
Buildings	2,345,977	3,726,310
Machinery and equipment	11,891,239	11,402,218
Furniture and fixtures and leasehold improvements	594,968	512,887
	14,919,300	15,747,970
Less accumulated depreciation and amortization	12,425,525	12,734,126
	\$ 2,493,775	\$ 3,013,844

Depreciation expense recorded in 1970 was \$520,235 (\$643,143 in 1969).

(5) Income Taxes:

The Company and all of its subsidiaries eligible for inclusion in a consolidated Federal income tax return joined in the filing of such a consolidated return for both 1970 and 1969.

For 1970, the consolidation for U. S. tax purposes resulted in a reporting of a U. S. net consolidated operating loss. The result of filing a consolidated return was to offset ordinary tax losses of the Parent and insurance subsidiaries against ordinary taxable income of the bank subsidiary and to offset capital losses of the insurance subsidiaries against capital gains of the Parent and bank subsidiary. For this reason, the tax effects in 1970 are not proportionate to the pretax income items reflected in the statement of earnings.

The total income tax expense for 1970 of \$579,177 consists of the following:

Parent company's recoverable income taxes arising from carry-back of its share of consolidated net operating loss reportable for U. S. Federal tax purposes	\$115,000
Current foreign income tax expense of consolidated Canadian subsidiary	(78,425)
Net recoverable taxes of Parent and consolidated subsidiary	36,575
Equity in tax benefit (expense) of subsidiaries not consolidated in these statements:	
Deferred tax expense	(\$871,850)
Recoverable income taxes arising from carryback by insurance subsidiaries of their share of consolidated net operating loss reportable for U. S. Federal tax purposes	256,098

Equity in net tax (expense) of subsidiaries not consolidated in these statements

(615,752)

Net income tax (expense)

(\$579,177)

The deferred taxes of subsidiaries not consolidated relate primarily to the increased equity of insurance subsidiaries in unearned premiums, which increased equity is not currently includable in Federal taxable income.

(6) Pension Plan:

The Company has a noncontributory pension plan for salaried employees. Benefits are funded through the medium of an independently trustee fund, the assets of which exceed the actuarially computed vested and nonvested benefits. The current year's pension expense was \$26,000 and represents normal costs less amortization of the overfunded position at August 1, 1968 on a ten-year basis.

(7) Long-term Debt:

Under the terms of a loan agreement, the Company was liable to certain banks at January 2, 1971 for \$5,250,000, of which \$1,500,000 is due within one year. Interest, payable quarterly in arrears, is computed at $\frac{1}{2}\%$ over the prime rate for 90-day commercial loans of The First National Bank of Boston, which serves as the agent bank. Principal is payable quarterly in the amount of \$375,000 with a final installment of \$3,375,000 due on June 30, 1972.

The agreement contains provisions, among others, that: the banks may at any time require the debt to become secured; the Company will maintain working capital of at least \$8,000,000; net worth shall be at least \$35,000,000; and each subsidiary will maintain net worth at least as follows:

National Fire & Marine Insurance Co.	\$ 1,300,000
National Indemnity Company	8,000,000
Illinois National Bank & Trust Co.	11,500,000

The agreement also limits the Company's ability, without consent of the banks, to dispose of any substantial portion of its assets; to incur additional indebtedness for borrowed money; or enter into business combinations. Additionally, the agreement contains restrictions regarding the issuance by subsidiaries of additional shares of their capital stock, options therefore or securities convertible thereto.

(8) $7\frac{1}{2}\%$ Subordinated Debentures:

Debentures bear interest at the rate of $7\frac{1}{2}\%$, payable February 1 and August 1, and will be due on August 1, 1987. The debentures are not secured by any lien and are not convertible; they are subordinated to senior indebtedness which includes indebtedness of the Company for money borrowed. The debentures may, at the Company's option, be redeemed at 105% through July 31, 1973 and thereafter at 100%. The indenture under which the debentures are issued requires the Company to provide for the retirement by redemption, through a sinking fund, on August 1 in each of the years 1973 to and including 1986, of one-fifteenth of the total amount of debentures issued. Redemption through the sinking fund shall be at principal amount plus accrued interest.

(9) "One-Bank Holding Company" Status:

Because of its controlling ownership of the Illinois National Bank & Trust Co. of Rockford, the Company is a "one-bank holding company" and as a result of recently enacted Federal legislation is required prior to January 1, 1981 to divest itself either of its controlling interest in the bank or its activities unrelated to banking. So long as the Company controls the bank, it is subject to the restrictions on its activities imposed by this legislation.

FINANCIAL STATEMENTS

1970

ACCOUNTANTS' CERTIFICATE

PEAT, MARWICK, MITCHELL & CO.

CERTIFIED PUBLIC ACCOUNTANTS

KIEWIT PLAZA

OMAHA, NEBRASKA 68131

The Board of Directors
National Indemnity Company:

We have examined the consolidated statutory statement of assets and liabilities of National Indemnity Company and its wholly-owned subsidiary, Cornhusker Casualty Company, as of December 31, 1970 and the related statements of consolidated income and consolidated paid-in and unassigned surplus for the year then ended. We have also examined the supplemental statements of consolidated adjusted income and consolidated stockholders' equity. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, such financial statements present fairly the consolidated statutory financial position of National Indemnity Company and its wholly-owned subsidiary, Cornhusker Casualty Company, at December 31, 1970 and the consolidated income and changes in consolidated paid-in and unassigned surplus for the year then ended, in conformity with insurance accounting principles prescribed or permitted under statutory authority applied on a basis consistent with that of the preceding year. These principles vary in some respects from generally accepted accounting principles, as explained in note 1 to the consolidated financial statements. Also, in our opinion, the supplemental consolidated statements of adjusted income and stockholders' equity present fairly net income for the year ended December 31, 1970 and the consolidated stockholders' equity at that date in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Adjusted stockholders' equity	<u>\$17,289,689</u>	<u>\$12,506,001</u>

See accompanying notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 1970

(1) Basis of Presentation:

The accompanying financial statements have been prepared, except as to form, on the basis of the requirements for reporting in the annual statements filed with the Insurance Departments of the respective domiciliary states. The Federal income tax credit included in the accompanying financial statements had not been computed at the time the annual statement was filed and was not included therein.

The financial statements have been prepared in conformity with insurance accounting principles prescribed or permitted under statutory authority which differ in some respects from generally accepted accounting principles followed by other business enterprises in determining financial position and results of operations. Pursuant to such practices (a) investment securities are carried in accordance with valuations established by the National Association of Insurance Commissioners, i.e. eligible bonds are carried at cost adjusted, where appropriate, for amortization of premium or discount, and other bonds and stocks are carried at market values with no provision for income taxes relative to unrealized appreciation in such investments; (b) premium income is taken into earnings on a pro rata basis over the periods covered by the policies, whereas related acquisition and commission costs are charged when incurred; (c) statutory loss reserves are required on certain lines of insurance in excess of losses computed on a case basis; (d) assets are included in the statement of assets and liabilities at "admitted asset value" and "nonadmitted assets" are excluded (see note 2); and (e) a provision is made for unearned premiums and losses recoverable, in excess of funds held, on business reinsured with

companies not qualified by license. The effects of such differences is shown in the accompanying supplemental statements of adjusted stockholders' equity and adjusted net income.

During 1970 National Indemnity Company formed a subsidiary insurance company, Cornhusker Casualty Company. National Indemnity owns 100% of the outstanding stock of Cornhusker Casualty Company and the two companies have been consolidated in this report with significant intercompany transactions and balances eliminated.

(2) Nonadmitted Assets:

The assets in the accompanying statement of assets and liabilities are stated at admitted asset value. The term "admitted assets" means the values at which they are permitted to be reported in the annual statement filed with the state regulatory authority. The term "nonadmitted assets" means assets other than assets which are so permitted.

Assets which have been excluded from the statement of assets and liabilities at December 31, 1970 are as follows:

Agents' balances and uncollected premiums	\$ 52,900
Equipment and furniture	204,745
Other	5,039
	<u>\$262,684</u>

(3) Bonds and Stocks:

Bonds and stocks are carried in accordance with valuations established by the National Association of Insurance Commissioners (see note 1). The "admitted value" of bonds on deposit with regulatory authorities at December 31, 1970 was \$2,235,178.

National Indemnity Company

(Subsidiary of Berkshire Hathaway Inc.)

AND ITS WHOLLY-OWNED SUBSIDIARY, CORNHUSKER CASUALTY COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, *Continued*

The change in each year in the valuation between investments at book value and investments as valued in the annual statement is carried to surplus as unrealized gain or loss from investments.

(4) Real Estate:

Real estate consists of the home office building and related real estate owned by National Indemnity Company and is included in the statement of assets and liabilities at cost less accumulated depreciation. Provision for depreciation of real estate is based upon the estimated useful life of the building and is computed under the straight-line method.

(5) Unearned Premiums:

Unearned premiums are computed on the monthly pro rata basis and include provisions for refunds under retrospectively rated policies and are stated after deduction on account of reinsurance placed with other insurers in the amount of \$3,666,374 at December 31, 1970.

(6) Unpaid Losses and Loss Expenses:

The net reserve for unpaid losses and loss expenses is after the deduction of amounts for reinsurance placed with other insurers in the amount of \$2,791,815 at December 31, 1970.

(7) Federal Income Taxes:

The companies intend to file a consolidated Federal income tax return with Berkshire Hathaway, Inc. for the year ended December 31, 1970. Federal income tax recoverable included in the statement of assets and liabilities is computed on the amount of loss not used in the consolidated return and therefore available for carryback against prior year payments.

Federal income tax returns have been examined through 1966 by the Internal Revenue Service and adjustments have been proposed. The company has filed a protest and management believes that the final determination will result in a refund due to the company.

(8) Capital Stock:

During 1970 the stockholders purchased an additional 50,000 shares of common stock at a cost of \$40 per share.

ACCOUNTANTS' CERTIFICATE

PEAT, MARWICK, MITCHELL & CO.

CERTIFIED PUBLIC ACCOUNTANTS

KIEWIT PLAZA

OMAHA, NEBRASKA 68131

The Board of Directors
National Fire & Marine Insurance Company:

We have examined the statutory statement of assets and liabilities of National Fire & Marine Insurance Company as of December 31, 1970 and the related statements of income and paid-in and unassigned surplus for the year then ended. We have also examined the supplemental statements of adjusted income and stockholder's equity. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, such financial statements present fairly the statutory financial position of National Fire & Marine Insurance Company at December 31, 1970 and the income and changes in paid-in and unassigned surplus for the year then ended, in conformity with insurance accounting principles prescribed or permitted under statutory authority on a basis consistent with that of the preceding year. These principles vary in some respects from generally accepted accounting principles, as explained in note 1 to the financial statements. Also, in our opinion, the supplemental statements of adjusted income and stockholder's equity present fairly net income for the year ended December 31, 1970 and the stockholder's equity at that date in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Adjusted stockholder's equity	\$2,544,130	\$2,148,921

See accompanying notes to financial statements.

NOTES TO FINANCIAL STATEMENTS

December 31, 1970

(1) Basis of Presentation:

The accompanying financial statements have been prepared, except as to form, on the basis of the requirements for reporting in the annual statements filed with the insurance departments of the respective domiciliary states. The Federal income tax credit included in the accompanying financial statements was not included in the 1970 annual statement as filed because the amount had not been computed by the due date.

The financial statements have been prepared in conformity with insurance accounting principles prescribed or permitted under statutory authority which differ in some respects from generally accepted accounting principles followed by other business enterprises in determining financial position and results of operations. Pursuant to such practices (a) investment securities are carried in accordance with valuations established by the National Association of Insurance Commissioners, i.e. eligible bonds are carried at cost adjusted, where appropriate, for amortization of premium or discount, and other bonds and stocks are carried at market values with no provision for income taxes relative to unrealized appreciation in such investments; (b) and premium income is taken into earnings on a pro rata basis over the periods covered by the policies, whereas related acquisition and commission costs

are charged when incurred. The effects of such differences is shown in the accompanying supplemental statements of adjusted stockholder's equity and adjusted net income.

(2) Bonds and Stocks:

Bonds and stocks are carried in accordance with valuations established by the National Association of Insurance Commissioners (see note 1).

The "admitted value" of bonds on deposit with regulatory authorities at December 31, 1970 was \$162,131.

The change in each year in the valuation between investments at book value and investments valued as set forth in the annual statement is carried to surplus as unrealized gain or loss from investments.

(3) Unearned Premiums:

Unearned premiums are computed on the monthly pro rata basis and include provisions for refunds under retroactively rated policies and are stated after deduction for reinsurance placed with other insurers in the amount of \$426,283.

(4) Unpaid Losses and Loss Adjustment Expenses:

The reserve for unpaid losses and loss adjustment expenses is after deduction of amounts for reinsurance placed with other insurers in the amount of \$547,161.

National Fire & Marine Insurance Company

(Subsidiary of Berkshire Hathaway Inc.)

NOTES TO FINANCIAL STATEMENTS, *Continued*

(5) Federal Income Taxes:

The Company intends to file a consolidated Federal income tax return with its parent, Berkshire Hathaway Inc., for the year ended December 31, 1970. Federal income tax recoverable included in the financial statements is computed on the portion of this year's tax loss not used in the consolidated return and

therefore available to carryback to prior years' returns.

Federal income tax returns have been examined through 1966 by the Internal Revenue Service and adjustments have been proposed. The Company intends to file a protest and management believes that final determination will result in a refund due to the Company.

CERTIFIED PUBLIC ACCOUNTANTS

111 WEST MONROE STREET

CHICAGO, ILLINOIS 60603

The Board of Directors
The Illinois National Bank &
Trust Co. of Rockford
Rockford, Illinois:

We have examined the consolidated statement of condition of Illinois National Bank & Trust Co. of Rockford and subsidiaries as of December 31, 1970 and the related consolidated statements of income, changes in capital accounts, and source and application of funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, such financial statements present fairly the financial position of Illinois National Bank & Trust Co. of Rockford and subsidiaries at December 31, 1970 and the results of its operations and changes in capital accounts for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the accompanying consolidated statement of source and application of funds for the year ended December 31, 1970 presents fairly the information shown therein.

Total funds used	<u>\$10,291,696</u>	<u>\$ 5,800,957</u>

See accompanying notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 1970

(1) Basis of Presentation:

The consolidated financial statements include the accounts of the Bank and its wholly-owned subsidiaries, Brown Building Corporation and Illinois National Safe Deposit Company. Income is reported on the cash basis for tax purposes and applicable deferred taxes have been provided for in the consolidated financial statements (see note 7).

(2) Investment Securities:

Investment securities are stated at cost, adjusted for amortization of premium. The approximate market value of investments at December 31, 1970 and 1969 was \$52,440,000 and \$44,023,000, respectively.

Investment securities, at cost less premium amortization, of \$9,126,786 and \$8,069,083 at December 31, 1970 and 1969, respectively, were pledged to secure public deposits and for other purposes required by law.

(3) Loans:

Loans have been reduced by unearned discount and consumer credit loan payments. Unearned discount was \$2,185,639 on December 31, 1970 and \$2,206,028 on December 31, 1969. Consumer credit loan payments totaled \$10,901,329 on December 31, 1970 and \$11,031,809 on December 31, 1969.

(4) Bank Premises and Equipment:

Bank premises and equipment are recorded at cost less accumulated depreciation of \$1,265,043 and \$1,061,740 at December 31, 1970 and 1969, respectively. Depreciation charged to expense totaled \$232,610 for 1970 and \$189,728 for 1969. Depreciation is computed on the straight-line method for building and automobiles and on an accelerated method for improvements, equipment, and drive-in and parking facilities. Deferred taxes have been provided for depreciation taken on certain of these assets on an accelerated basis for tax purposes and straight-line basis on the books.

AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, *Continued*

(5) Reserve for Loan Losses:

Transactions in the reserve for loan losses for the year ended December 31, 1970 were as follows:

	<u>1970</u>	<u>1969</u>
Balance at beginning of year	\$800,271	\$599,009
Provision charged to:		
Operating expenses	51,790	61,600
Undivided profits	<u>50,502</u>	<u>165,876</u>
	902,563	826,485
Less loans charged off, net of recoveries of \$33,844 in 1970 and \$57,897 in 1969	<u>42,118</u>	<u>26,214</u>
Balance at end of year	<u>\$860,445</u>	<u>\$800,271</u>

The loan loss provision charged to operating expenses is based on a five-year moving average ratio of net charge-offs to total loans over the past five years, including the current year. Additional provisions provided under the Treasury Tax formula of the Internal Revenue Service are charged to undivided profits net of the tax effect.

(6) Pension and Profit Sharing Plan:

The Bank has a non-contributory pension plan and a profit sharing plan for all officers and employees with two full years of service. No pension contribution was required for 1970; the profit sharing expense was \$111,496 for 1970. The total pension and profit sharing expense for 1969 was \$97,138.

As of January 1, 1970 the book value of the pension trust assets exceeded the actuarial values of the vested benefits of the participants.

(7) Tax Benefits Received From Parent:

The federal income tax benefit is the result of the consolidated tax position of the Bank's parent, Berkshire Hathaway Inc. and certain other subsidiaries. In 1970 the consolidated net loss of the group resulted in a recovery of the Bank's entire current federal income tax liability.

Deferred federal income taxes resulting from the difference between the accrual basis of accounting for book purposes and the cash basis of accounting for tax purposes have been provided in the consolidated financial statements.
